The "alfalfa palace" to be built on the fair grounds will be one of the most attractive features at the exhibition next month. It will be constructed entirely of baled alfalfa, and the interior will be used for the exhibition of agricultural products and implements. This will add greatly to the hall room, but it will fall very far short of supplying the demand and the officers have just contracted for the erection of a new frame building 40x100, which will give altogether, a little over 20,000 square feet of floor space or a little more than twice as much as we have ever had before, and present appearances indicate that this will all be occupied.—Albuquerque Democrat.

Notice to all People.

Mrs. E. R. The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional remedy, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers, that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.
